

COMPANY PROFILE

Since the early Sixties ERRE.DI. has been manufacturing fittings for a wide range of industries.

Distinguished for its **quality, accuracy, and innovation**, our company has quickly included fitted flexible hoses into its product range and expanded into the **Chemical, Petrochemical and Oil&Gas** markets.

Today ERRE.DI. products include several **fittings** (stainless steel, aluminium, brass, galvanized steel, bronze, Duplex, Super Duplex and Hastelloy), **flexible hoses (metal, rubber, PTFE, composite)**, and **gaskets**.

Our Mission

More than a supplier of high technology, ERRE.DI. turns the most different and complex needs of its customers into **effective solutions and cutting-edge technologies**, assuring competitive costs.

Thanks to their know-how and expertise, Bruno and Mauro Villa, the owners of ERRE.DI., created a reliable and **qualified team** of professionals able to work in synergy with customers to supply the ideal “**Full Package Service**”.

**Customer Service
is an attitude**

Our Company

Our Products

Quick disconnect couplings

Quick and simple in every situation

VR Camlock

The origin of species... continuously evolving

DIN couplings

Suitable for food industry

Storz couplings

Connect your firefighting system

Screw couplings

Quick and simple in every situation

No Drop couplings

Focusing on safety

Tankwagen couplings

Reloading your tank

Flat face couplings

Quick and simple in every situation...
even under pressure

Express couplings

Connect air and water hoses

Clamp couplings

Suitable for food industry

Hose connections

Flexible hoses and Equipment

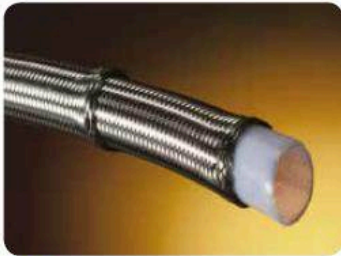

Metal hoses

The certainty for all plants

Rubber hoses

The right rubber type for each fluid

PTFE hoses

Aggressive fluids... no more fear

VENT - DUST hoses

Flowing your air

Composite hoses

Extreme lightness and flexibility

Expansion joints

Handling your expansions

Swivel joints

Allow revolving

Quick opening closures

For gas pipeline

Safety clamps

Fasten your hoses

Safety break-away couplings

Prevent hose strain

Hammer unions

Heavy-duty for heavy applications

Gaskets/Insulation Kit

The right seal for each application

Our Certifications

ERRE.DI. provides internationally recognized certifications (**ISO 9001**, **ATEX**, **PED**, **GOST**) for all its products.

These certifications do not mean the formal fulfilment of applicable legal requisites, but also further support and stimulation for the constant improvement of the management of company processes.

Reference markets

In just few years, ERRE.DI. has succeeded in becoming a **leader** in the production of **hoses, connections and flexible hoses** and is now a reference point for the entire product category in Italy and in **several overseas countries**.

Registered in the vendor list of the major companies in the **Oil&Gas, Chemical, and Steel industries**, ERRE.DI. has taken part in different projects and has **references all around the world**.
